How to put your hands to work making money

Do you remember what you paid the repairman, the last time you had trouble with your TV, Air Conditioner, or Automobile? Do you know how much it would cost today—to fix your roof, install new kitchen appliances, or change the electrical wiring in your home?

Now, turn it around—and look at it this way: do you realize how much money you could earn today if you were a trained Electrician, Auto Mechanic, or Electronics Technician? And do you realize how many job openings exist in these fields... either full or part time?

Suddenly, it's a wide-open world of opportunity, if you're one of those fortunate people who enjoy working with their hands. If you can choose one of the high-paying fields where your talents are needed and appreciated. And if you can get the kind of career training that today's employers and consumers are willing to pay big money for.

To help you select a field that's right for you, we've listed 14 opportunities on the coupon below. And you are invited to find out what you should know about the field you like best, by simply mailing the coupon.

Free Guidance Booklet

In return, you will receive a free Career Guidance Booklet that describes the opportunities, income, and job security you might expect in your newly chosen field. It will also explain how ICS can help you get the training you need to break into this new career field...right in your home...during your spare time...without losing a single day's pay from your present job...and without ever setting foot in a classroom.

Free "Demonstration Lesson"

In addition, you'll receive a free "Demonstration Lesson" that lets you see for yourself why picking up the job skills you need—the ICS way—may be easier than you think.

Major Corporations Use ICS Career Training

Please bear in mind, as you fill in the coupon below, that more than 8,500,000 men and women have turned to ICS for career training since 1890. And some 3,300 American firms and government agencies are also using ICS training programs to upgrade their employees. (Among these firms are such names as *Ford, U.S. Steel, Chrysler, Mobil, 3M Company, Alcoa, Pan Am, GE, Motorola,* and *RCA.*)

ICS career training is Approved for Veterans, and is Accredited by the Accrediting Commission of the National Home Study Council. Now it's your turn to discover how ICS can start *you* in a rewarding new career. Just mail the coupon for your free guidance materials to: ICS, Scranton, Pa. 18515.

THE TIME CAPSULE

By Steve Sherman

Dear Mr. Kirby,

Congratulations! I don't know whether or not you were aware of it, but the premier issue of KAMANDI was your 50th comic for DC—beginning, of course, with JIMMY OLSEN #133 (and not including JO #140, which was an annual). Again I say: Congratulations!

And now, on to the matter of KAMANDI #1. To be perfectly honest, the entire thing was one big steal from the movie **The Planet of the Apes** and its first sequel, **Beneath the Planet**, etc. A less blunt person would say that you were "inspired" by these two films.

However, I did enjoy the issue very much. Why? Quite simply, because it was well done! The art was magnificent and the story excellent. A suggestion: try to avoid the use of dividing each issue into chapters, o.k.? (Say, I really appreciated that map near the book's end. A more extensive one would be most welcome very soon).

By the way, how does all this fit in with the Legion of Super-Heroes, whose adventures take place 1,000 years hence? It's doubtful that KAMANDI occurs **before** this time, yet the scenes of New York certainly don't go along with the futuristic architecture as portrayed in every Legion story I've ever read!

Frank A. Murphy
Warwick, Rd.

Well, Frank, you can take it one of two ways—either KAMANDI takes place before the Legion stories (and everything has returned to normal) or you can accept them as two different situations, with KAMANDI existing in the "real" world and the Legion in "imaginary" Metropolis. As the stories progress, we'll try and include a more detailed map. In answer to the first part of your letter, see the next answer.

* * * * *

Dear Mr. Kirby,

Sir, you have really got something here! KAMANDI is good, very good. It has the potential to be great—if you're careful! The first drawback you're going to face with avid science-fiction nuts like me is an overwhelming similarity to **The Planet of the Apes** series of pictures. Charleton Heston practically belonged on the cover! Please understand, I'm not knocking KAMANDI, and please hurry up with the next issue!

John House
Phoenix, Ariz.

It's a funny thing, John, but KAMANDI received more mail on its first issue than any comic Jack has done for DC. And most of them echoed the same feelings as yours—that they truly enjoyed the issue, but they seemed somewhat annoyed that Jack had used the Apes themes. Yet Jack has used the "talking animals" theme many times before. I'm reminded of a Challengers of the Unknown **story where there is a war between dogs and cats, Jack's use of the High Evolutionary in** Thor, **and the fact that the original KAMANDI was done as a proposed newspaper strip in the late fifties. Granted that the success of the** Apes **movies was instrumental in the decision to bring KAMANDI out, but it would seem to me that the differences between KAMANDI and** Apes **far outweighs the similarities. But then, I'm biased. By the way (believe it or not) Jack has only seen about 45 minutes of the first** Apes **movie and he has yet to see the others. Let's see Owen Marshall put up a defense like that!**

* * * * *

Dear Jack,

The other day while swamping the comic book section, I noticed your first issue of KAMANDI. The cover alone induced me to flip through it. To make a long story short, when I had flipped up to page 2, I was awe-struck. So much so that I bought it without looking any further. The double-page spread was terrific!

I've been buying DC mags for some time (I'm what people label an aspiring young artist who loves testing his ability by copying his favorite scenes from DC), and never have I seen in any mag such a dramatic piece of art! I figure if it's got a good story, it's usually accompanied by good art. And vice versa. A story that is good with lousy art, as far as I'm concerned, gets flung into the oblivion of my trashcan. May I say that you shall never see its bottomless opening.

Dick Collier
Arlington, Tex.

Thanks, Dick. And Jack sends along his wishes for success with your art career.

* * * * *

Dear Mr. Kirby,

I enjoy reading good comics, but lately they've been hard to find. When I read KAMANDI I was quite pleased. I liked the artwork and the story. I also liked the presentation of Kamandi—a young man (about 18, I suppose) who is manly enough, but who doesn't have to be the stereotyped HE-MAN who never cries or shows any emotion other than hate. To show him as **sensitive**, not sissyish, was quite an accomplishment.

I hope you continue the series, and throw in a human girl—not a romance—as a companion. Keep up the caliber of the first issue, as it was the perfect comic book. Simple enough for kids, but not too puerile for adults.

Ms. Miriam Kurland
St. Louis, Mo.

We trust that KAMANDI will remain on your list of good comics, Miriam. ESP must have prompted you to mention a companion for Kamandi, as subsequent issues will reveal an addition to the cast.

* * * * *

Dear Mr. Kirby,

KAMANDI #1 was terrific! At first I thought it would be a cheap imitation of the old MIGHTY SAMSON series. It was neither cheap, nor an imitation. There are, however, a few discrepancies I'd like to clear up. First is the map from the first issue. Such total destruction is impossible because in the event of an atomic war, only major cities would be hit, and fall-out only kills rather than mutates. Second, most of the follow-up adventures for Kamandi are concerned with animals not indigenous to the North/South American area. Third, I hope in future issues of KAMANDI that you show that some blacks have survived the war, too. Most magazines and movies with an "End-Of-The-World" theme have a disturbing way of excluding blacks from the survivors list. I hope that

KAMANDI will be different in this respect.

David Wainwright
Hollis, N.Y.

It seems as if you got the wrong idea about what caused the destruction, Dave. If you'll look back to the first issue, you'll see that it wasn't an atomic war which caused the trouble, but a natural disaster (such as a massive earthquake) coupled with some unknown radiation bombardment. Secondly, one reader pointed out that the tigers and gorillas might be "relatives" of the animals which are found roaming free in the many jungle compounds which are opening up around the country. Finally, your point about the use of black people is well taken, Dave, and we'll keep it in mind.

* * * * *

Dear Jack,

My congratulations to you, for you have really outdone yourself this time. I think the reason KAMANDI struck me this way was because I could fully understand it. With your trilogy and DEMON, it took me a few issues to comprehend and fully appreciate what was going on. KAMANDI is totally self-explanatory.

The art, as usual, was excellent, and Mike Royer has really topped his previous work with this issue.

Scott Paton
Ellicott City, Md.

* * * * *

Dear Jack,

I do like science-fiction and your new book looks great so far. I do have one question. If the animals are now high on the intelligence scale, why do the tigers ride horses? I saw fish, but no birds. Of course the action was rather heavy and a person can't expect to see a lot when he is so busy. As usual, it's great so I'll look forward to the next issue.

Brenda Hartley
Potomac, Ill.

For a moment I thought you were right about the birds, but I just flipped through the issue, and on the double-page spread, there are seagulls! Whether or not there are other species, Bren, remains to be seen. True, the horses have not evolved, but then, this isn't Mr. Ed comics!

* * * * *

Dear Jack,

Allow me to congratulate you on your great new mag. I really dig the name. As in MR. MIRACLE and the late, lamented FOREVER PEOPLE and NEW GODS, you have created new worlds, new realms to seek out. Thus, you have done much the same with KAMANDI. You have taken this world and changed it into a barren no-man's land, which is shown beautifully by pages 2 and 3. The encounter between Kamandi and the Wolf was really very realistic, each thinking the other a wild animal.

And, coming to the end of the story, I think Ben Boxer has great potential of becoming a major character. The ending of the story was very human as Kamandi realizes he is not alone in this strange, new world.

Tim Oswald
Tacoma, Wash.

Thanks, Tim, and also to the rest who sent in letters. There are plenty more surprises in store for you and Kamandi as he continues to discover his New World. But we're still here in the Old World, looking forward to your comments on this issue. So don't be shy, just write to us at P.O. Box 336, Newbury Park, Ca. 91320. Look for KAMANDI #5 in about 4 weeks.
